# FEATURES

Equipped with lenses that meet ANSI Z87.1 safety standards.

Wiley X DIGIFORCE™ digital Rx lenses with WX BLUE AR coating offer superior clarity and the blocking of harmful blue light.

Styling is perfect to wear for work and play.

Custom designed ANSI Z87.1 safety rated removable side shields included with every frame. (Permanent ANSI Z87.1 side shields also available.)

Stylish frames meet ANSI Z87.1 safety standards with side shields.

## SIDE SHIELD ASSEMBLY & REMOVAL

### ASSEMBLY

To assemble the side shields into the frame, fully insert the side shield “hooks” into the temple arm. Firmly grasp the temple arm and grasp the side shield. Slide the shield toward the frame front firmly until there is an internal snap to lock the side shield into position. The side shield is not fully attached until it is snapped (you will hear the click).

### REMOVAL

To remove the side shields, firmly grasp the temple arm and the side shield. Slide the shield back toward the temple tip. You will hear the click as the side shield unlocks from the temple arm.

# TECHNOLOGY

WorkSight™ frames are ANSI Z87.1 safety rated when the included custom side shields are attached. This means WorkSight™ frames must withstand the weight of a 1.1 pound pointed projectile dropped from a height of 50" (High Mass Impact test) and also must withstand the impact of a .25 inch steel ball fired at a rate of 150 fps (High Velocity Impact test).
